"Our work is a promise — to serve, to uplift, to empower."

## ABOUT US

Ekalavya Foundation, a distinguished Non-profit organisation, was registered under the Trusts Act in 2006 with the noble aim to support in uplifting the marginalized communities. Headquartered in Hyderabad, the Foundation has made remarkable contributions across various sectors since its establishment. By providing a comprehensive and integrated range of interventions, such as Agriculture and associated Livelihoods, Non-Farm Livelihoods, Natural Resource Management, Health, and Education, the Foundation addresses the multifaceted needs of marginalized communities. It aims to uplift them by improving their livelihoods and quality of life through sustainable resource management, and fostering socio-economic development.

---

## OUR VISION

To increase the levels of income and raise the standards of living of the community, especially those belonging to the deprived and marginalized sections through sustained functional interventions in developmental programs with special emphasis on farming, natural resource management, livelihood, health and education

---

## OUR MISSION

- Enhancing production through Natural Resource Management without disturbing ecological balance.
- Empowerment of farmers through collectives.
- Supplementing existing curriculum with value-based inputs in schools.
- Participating in activities to improve the existing health conditions with special focus on rural and urban slum women and girl child.
- Supporting generation of sustainable livelihood activities to increase family income.
- Transfer of technology- Lab to Land and imparting trainings for taking up profitable Non-chemical agriculture.
- Creation of basic awareness on laws of the land to empower the citizens on legal issues.

# Founder's Message

It gives me immense pleasure to present the Annual Report of Ekalavya Foundation for the year 2024–25. This year has been both challenging and inspiring, as we continued our journey of empowering tribal and marginalized communities across Telangana and Andhra Pradesh.

At Ekalavya Foundation, we believe that meaningful change is rooted in grassroots engagement, community participation, and an unwavering commitment to equity. Our dedicated team of staff and volunteers has worked tirelessly across our focus areas—Natural Resource Management, Agriculture, Livelihood & Skill Development, Education, and Health—to bring about sustainable and inclusive development.

A key highlight of the year was our continued emphasis on convergence and collaboration—with government agencies, like-minded organizations, and community-based institutions. These partnerships have helped us scale our impact and deepen our outreach, touching the lives of people across more than 550 villages.

Our listing on the Social Stock Exchange marks a significant milestone in our journey. It reaffirms our dedication to transparency, accountability, and innovation in the development sector. We are proud to be among the early NPOs in India to take this progressive step and set new benchmarks in mission-driven governance.

Encouraged by our achievements, we took new initiatives to broaden our horizon and extend our services to more underprivileged communities. In line with this, we made an attempt to explore the possibility of serving remote regions beyond our operational areas i.e, in Nellore district of Andhra Pradesh, Dhalai and South Tripura district of Tripura State. This has been well appreciated and endorsed by the NABARD.

I extend my heartfelt gratitude to all our stakeholders—community members, funding partners, government departments, volunteers, and our dedicated team—who have been an integral part of this journey. Together, we are not just transforming lives, but also nurturing hope, dignity, and self-reliance.

As we look ahead, we remain steadfast in our core values and vision of building empowered and self-sustaining rural communities. Let us continue to strive for a more inclusive and equitable society—one step at a time.

**P.VENUGOPAL REDDY**

# Our Values

## Sustainability

Focus on long-term community development

## Commitment

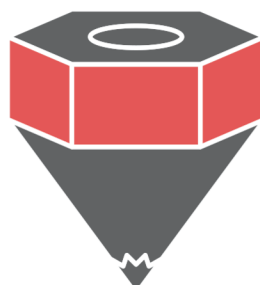

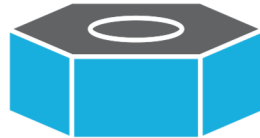

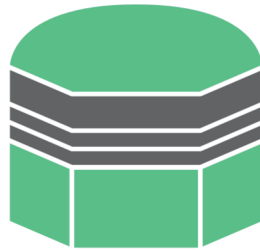

Dedication to overall community development

## Sensitivity

Being responsive to people's needs

## Community Participation

Encouraging community involvement in decisions

## Comparison of Livelihood Programs and People's Collectives

# NATURAL RESOURCE MANAGEMENT

# Walgonda Watershed

## Land Protection

695 acres of land protected, preventing soil erosion.

## Water Storage

20 Lakhs litres of water stored in structures.

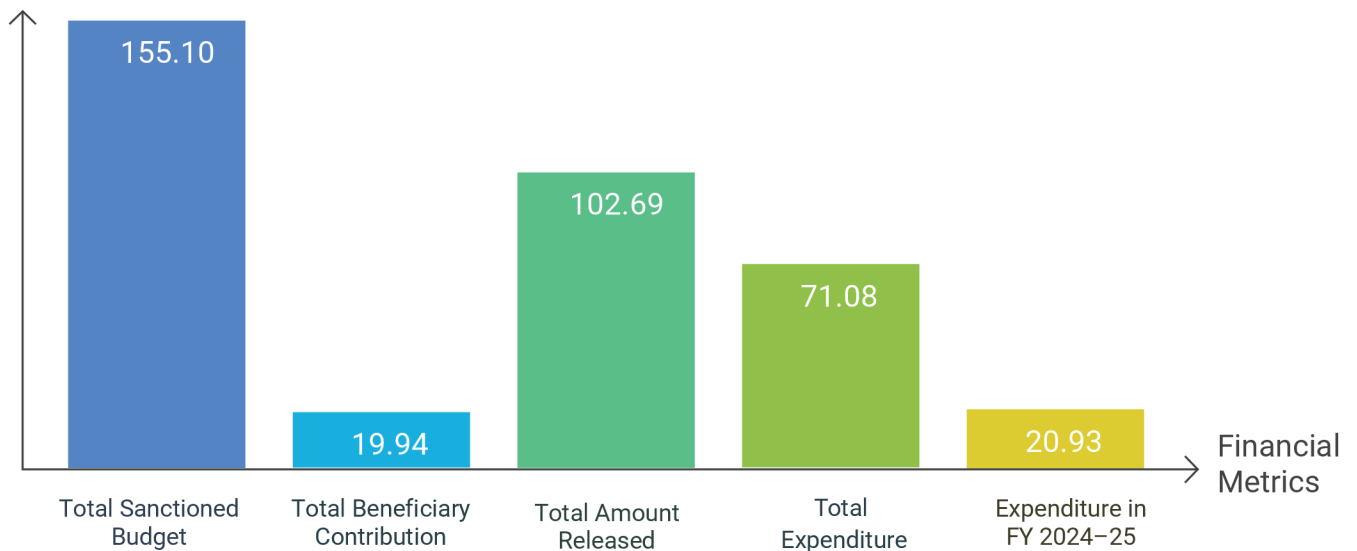

## Income Increase

20-30% Income increased through irrigation.

With the support of NABARD, Ekalavya Foundation has been implementing the Walgonda Watershed Project in Indervelly Mandal, Adilabad district since the financial year 2022–23. The project is scheduled to conclude in 2025–26. It covers a total area of 678.16 hectares.

Amount in Rupees (lakhs)

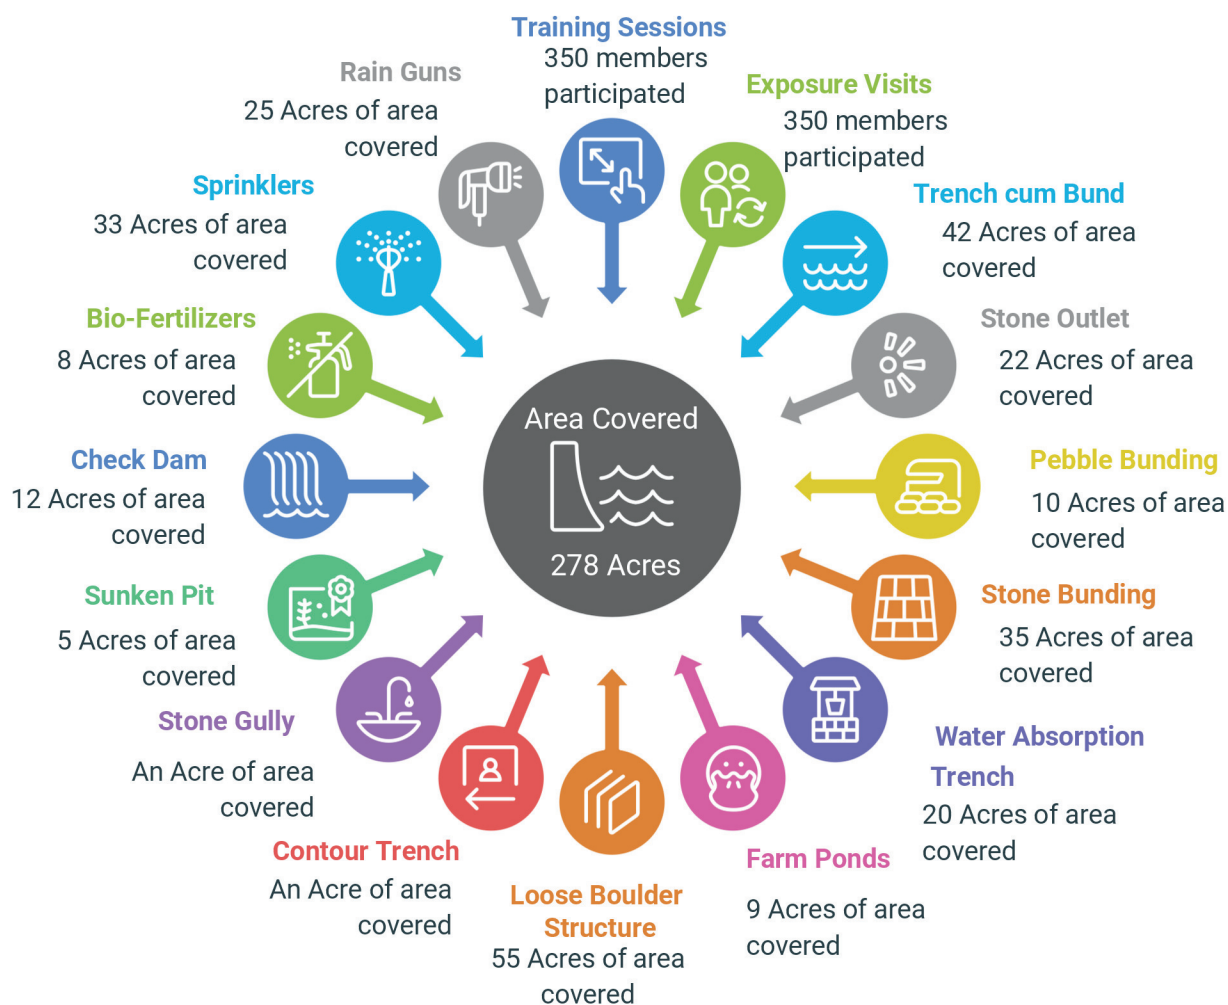

Financial Overview of Walgonda Watershed Project

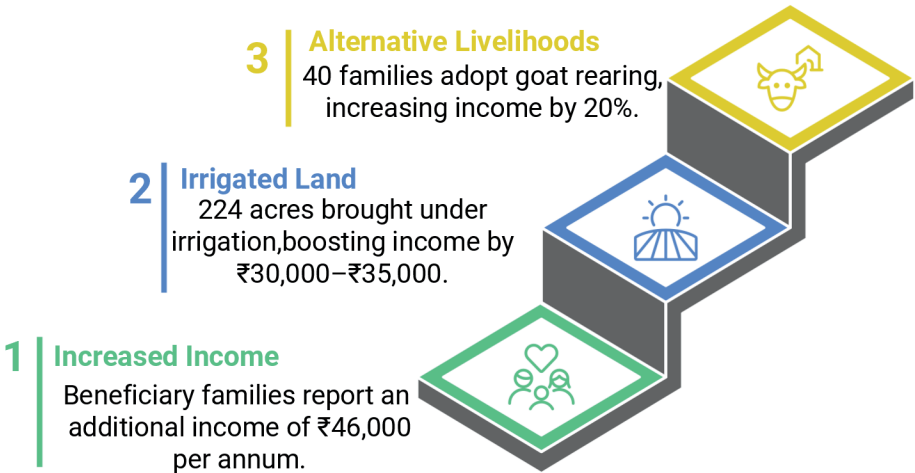

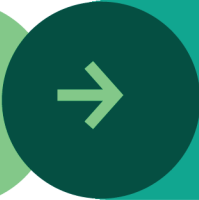

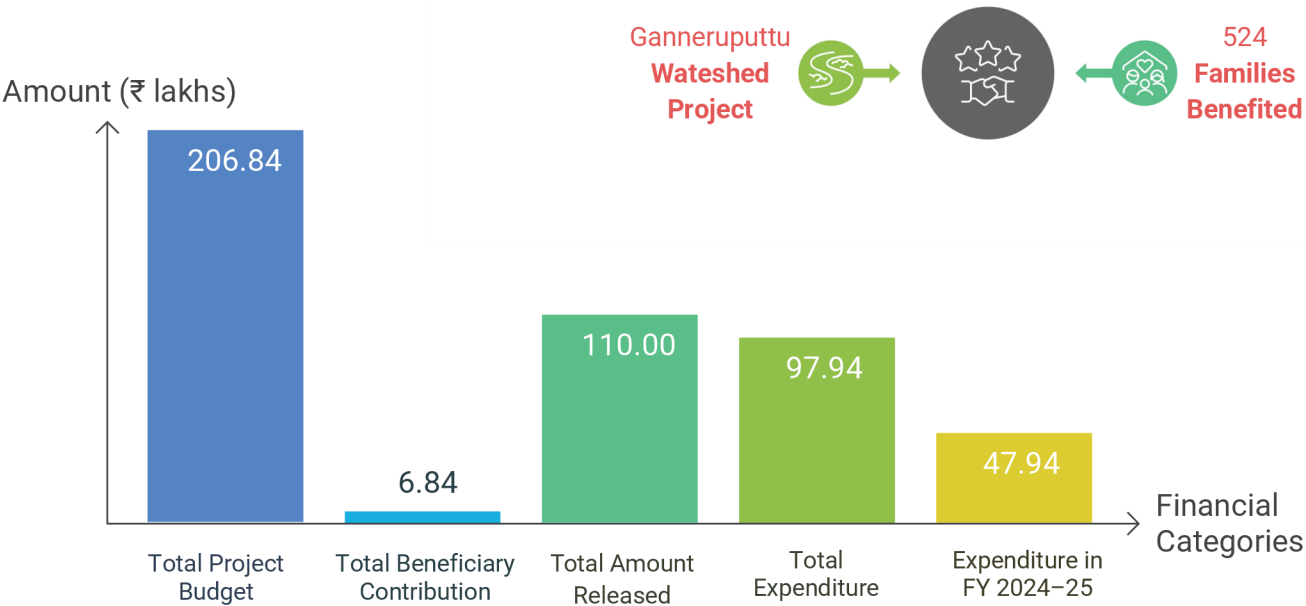

# Activities Undertaken

With the generous support of the Container Corporation of India (CONCOR), Ekalavya Foundation has been implementing the Ganneruputtu Watershed Project in the Alluri Sitarama Raju (ASR) District. This three-year initiative launched in 2023–24, aims to uplift 524 tribal families across 15 villages, covering an extensive area of 800 hectares. The project is slated to conclude in 2025–26.

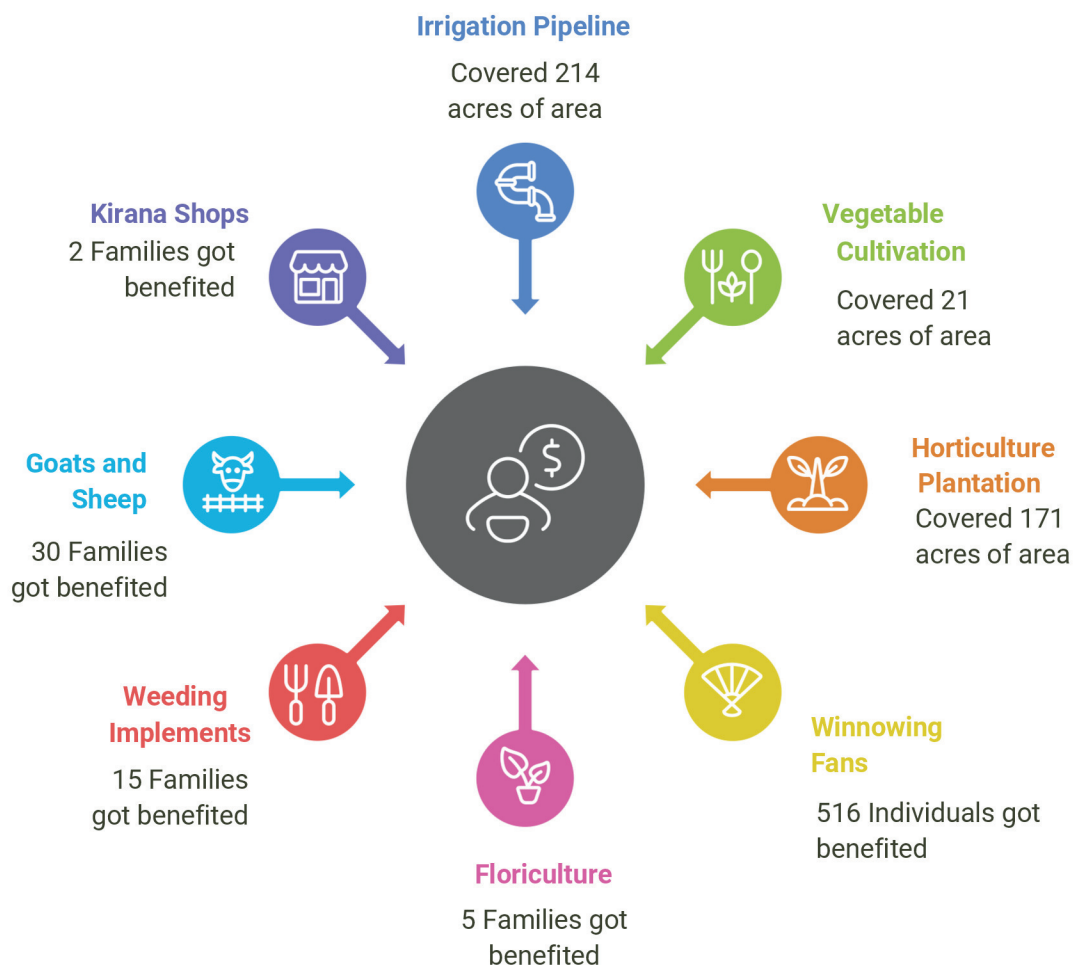

Financial Overview of Ganneruputtu Watershed Project

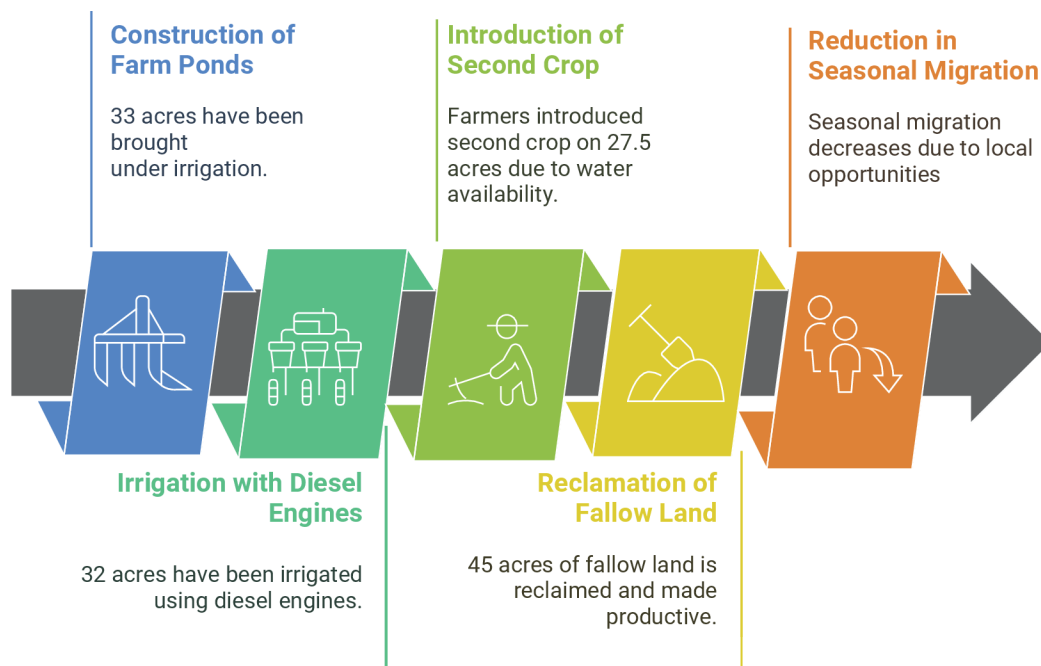

# Activities Undertaken

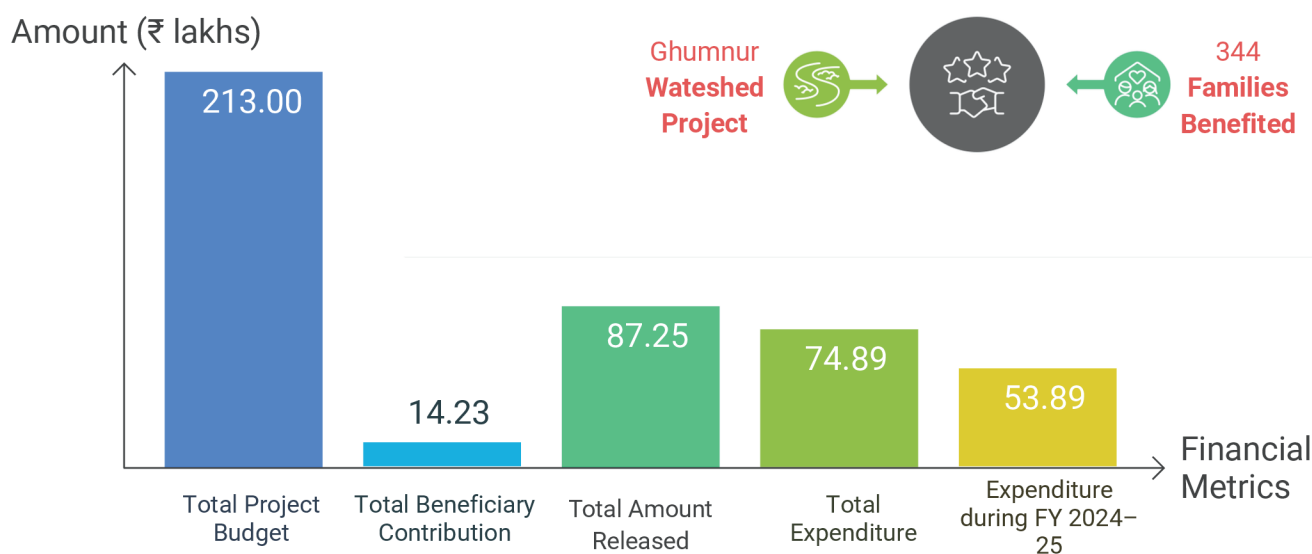

# Ghumnur Watershed

The Ghumnur Watershed Development Project, located in Lingapur Mandal, Komaram Bheem Asifabad District, Telangana, is a transformative initiative supported by Atlas Copco. Ekalavya Foundation has partnered with Atlas Copco to support this 4-year project aimed at holistic rural development.

- Project Duration: January 2024 – December 2026
- Area Covered: 905 hectares

This project is focused on enhancing access to water, improving land productivity, and securing sustainable livelihoods for the tribal population through integrated watershed development practices.

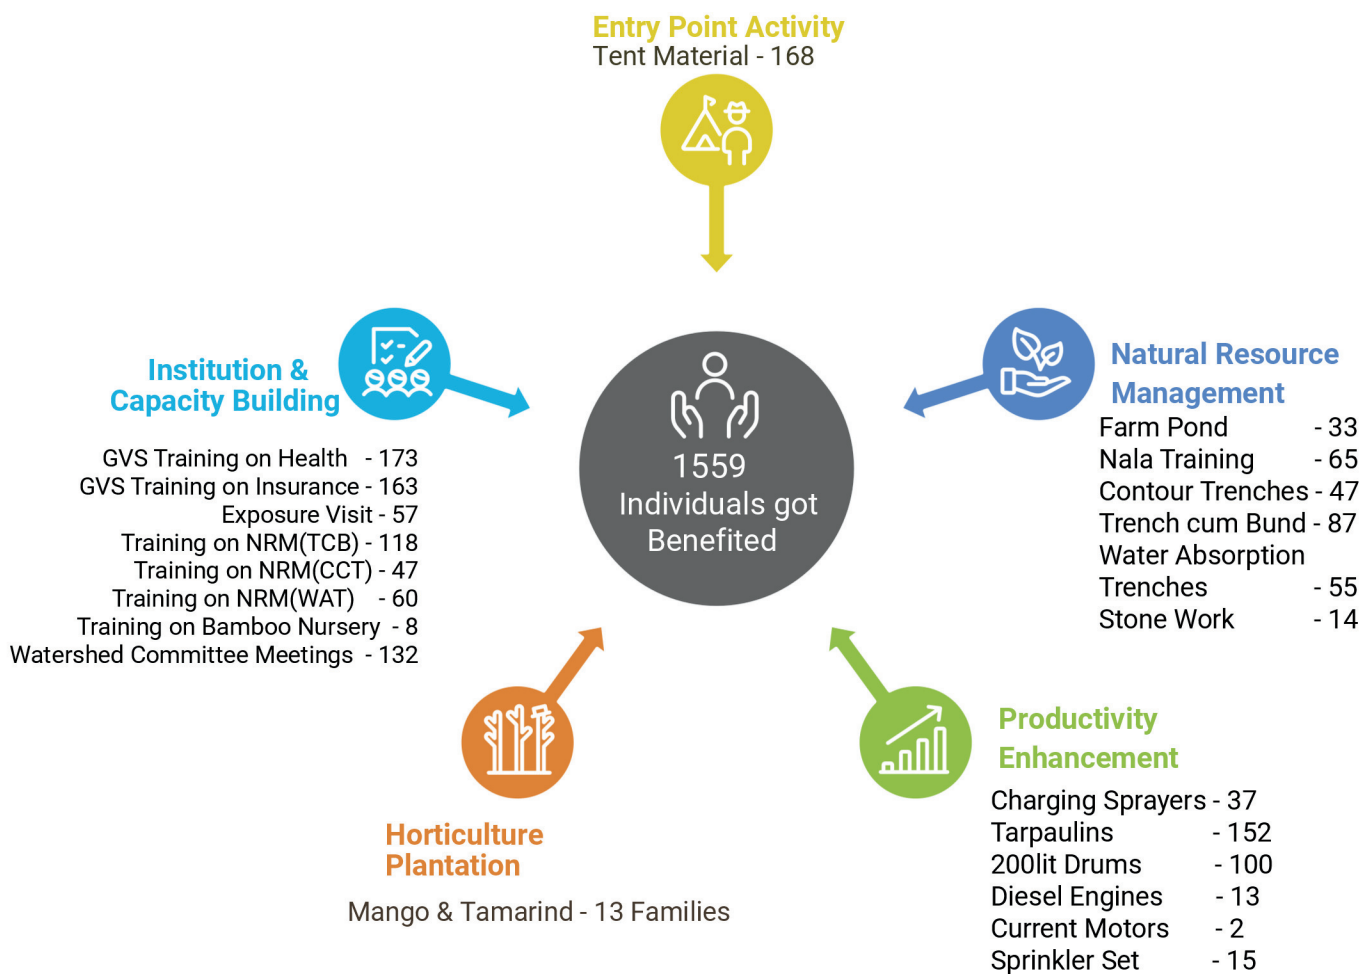

Financial Overview of Ghumnur Watershed Project

# Activities Undertaken

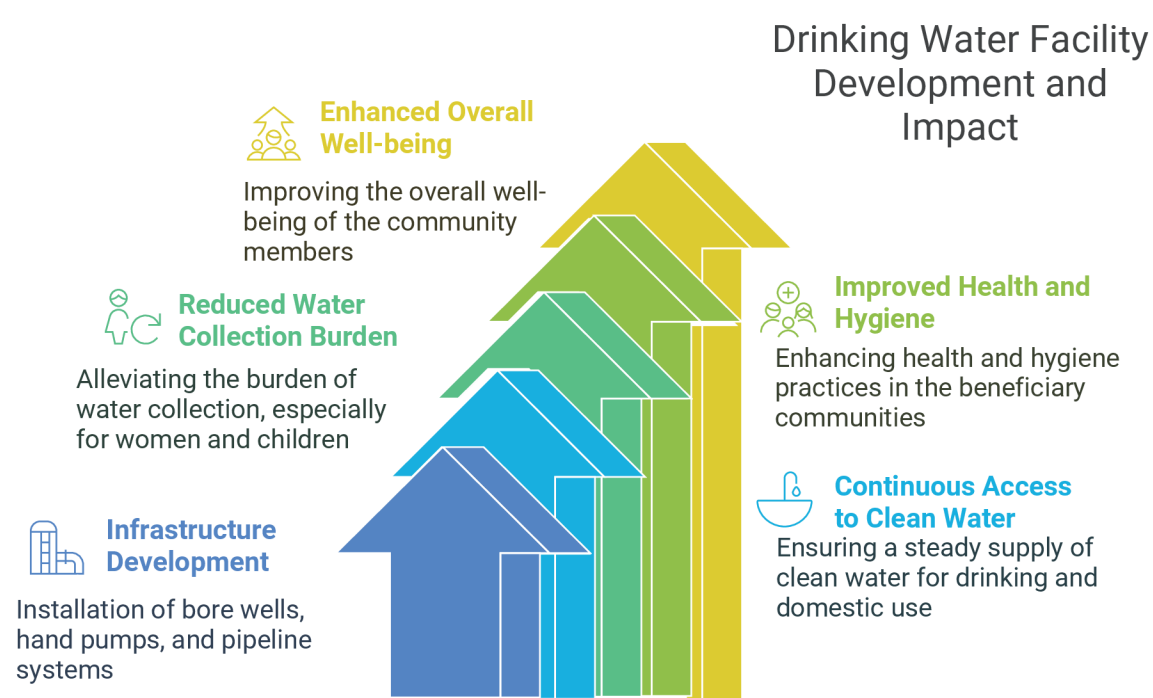

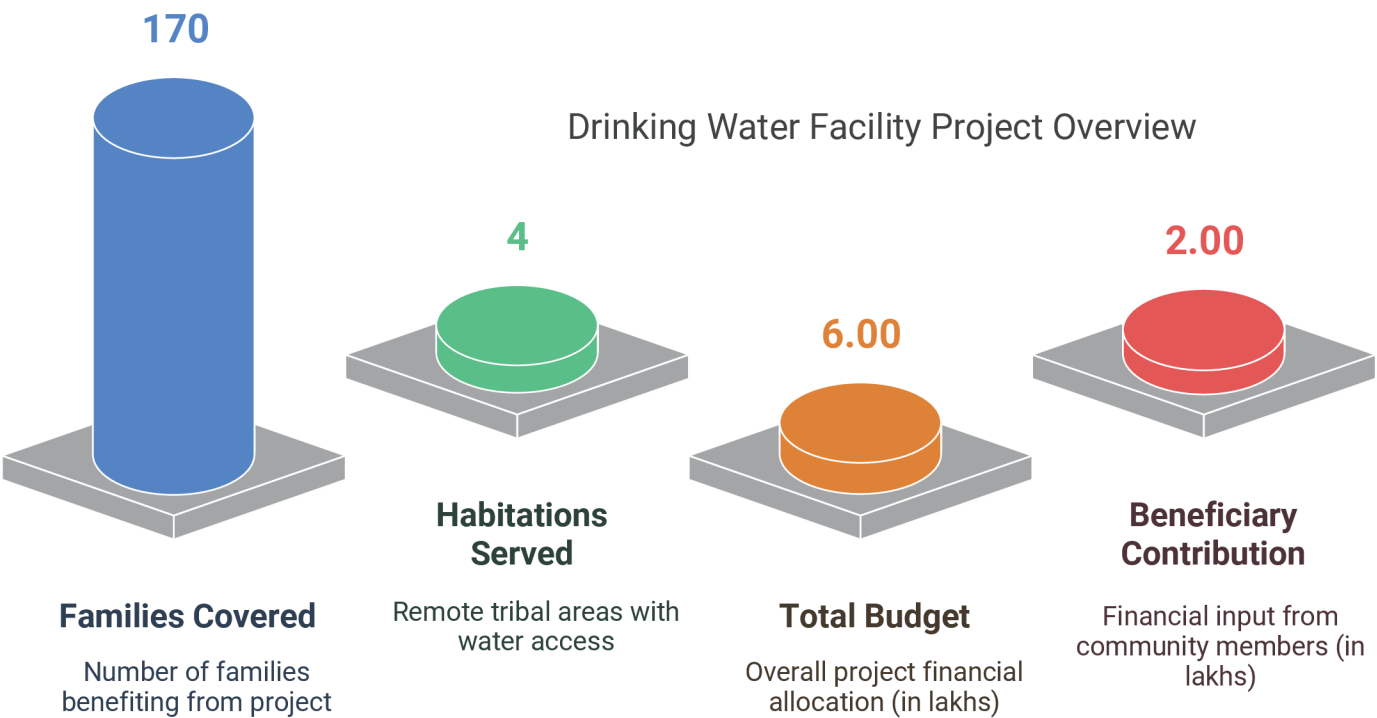

# Drinking water project

A focused intervention was undertaken to address the critical need for year-round access to safe and potable drinking water in remote tribal habitations with the support of Sewa International.

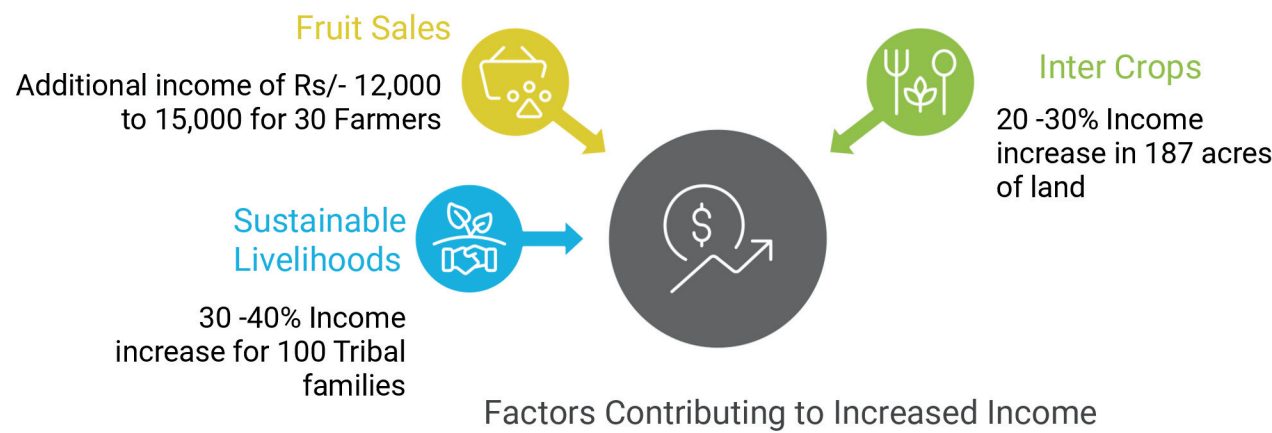

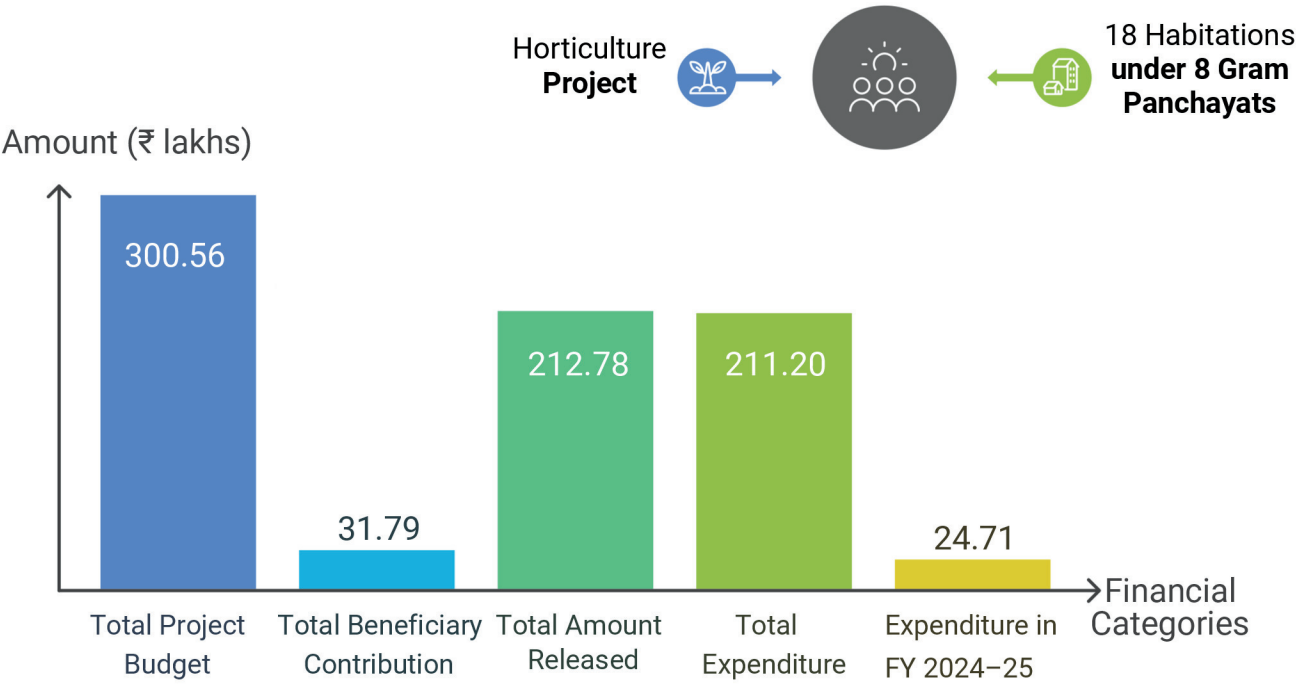

A close-up, slightly blurred photograph of a wheat field. The wheat stalks are golden-brown, indicating they are ripe. Some green leaves are still visible, particularly in the foreground. The background shows a continuation of the field under a clear sky. A dark green banner with white text is positioned at the bottom of the image.

**AGRICULTURE**

Supported by NABARD, this holistic development initiative focuses on improving the livelihoods and well-being of 500 tribal families through horticulture and allied interventions. The project is planned for 6 years (2021-2027) covering 18 habitations under 8 Gram Panchayats in Indervelli and Sirikonda Mandals of Adilabad district, where 95% of the population belongs to tribal groups, primarily Gonds, Lambadas, and Kolams (PVTG).

## Support Activities

Number of Beneficiaries

In the hilly and rocky terrains of Komaram Bheem Asifabad district, a significant portion of tribal farmers' land had remained uncultivable for decades due to the presence of large gravel, boulders, and degraded soil. Identifying this long-standing challenge, Ekalavya Foundation initiated a targeted land reclamation project with the support of TERADATA.

## Project Impact

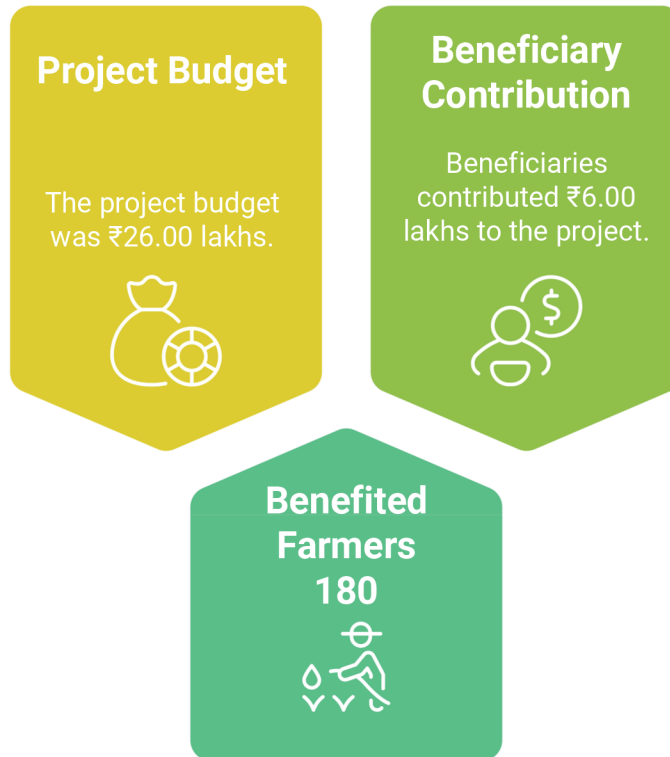

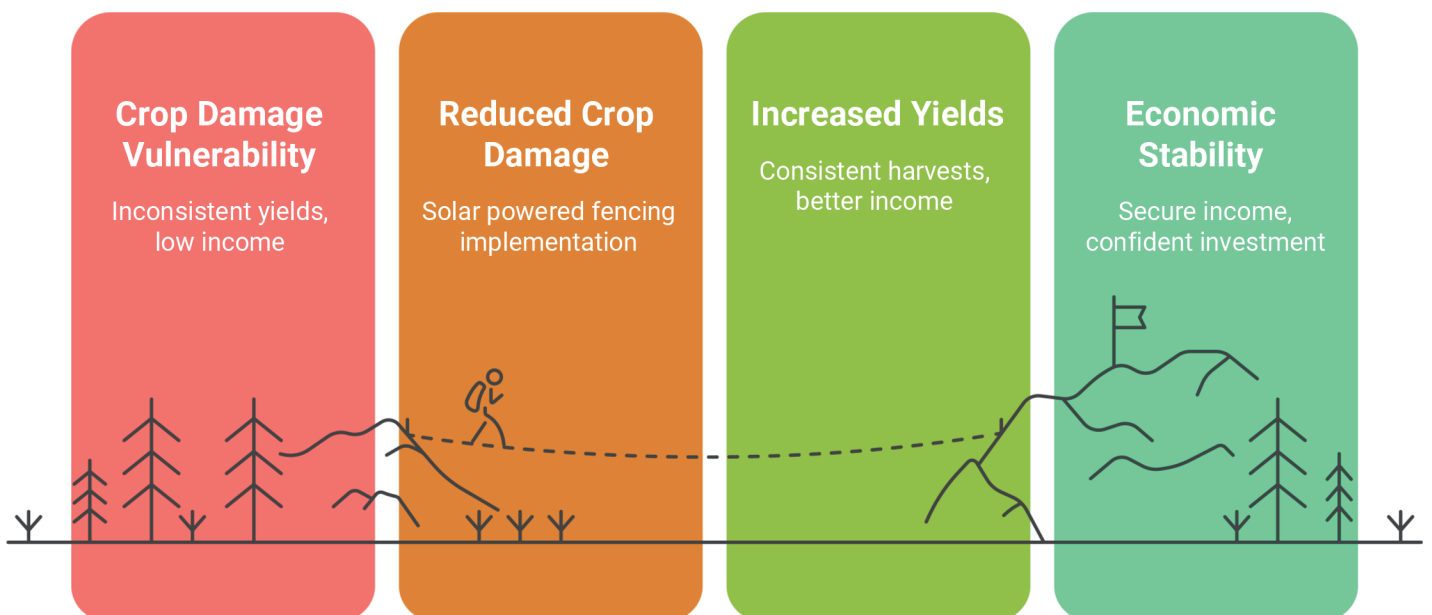

# Solar Fencing

With generous financial support from MedPlus -Optival Health Solutions, Ekalavya Foundation implemented a transformative initiative aimed at protecting agricultural lands from wildlife damage in tribal regions of Gudihathnur, Adilabad Rural, Indervelli, and Sirikonda Mandals of Adilabad district.

## Empowering Farmers Through Solar Technology

**BEFORE LAND RECLAMATION**

**AFTER LAND RECLAMATION**

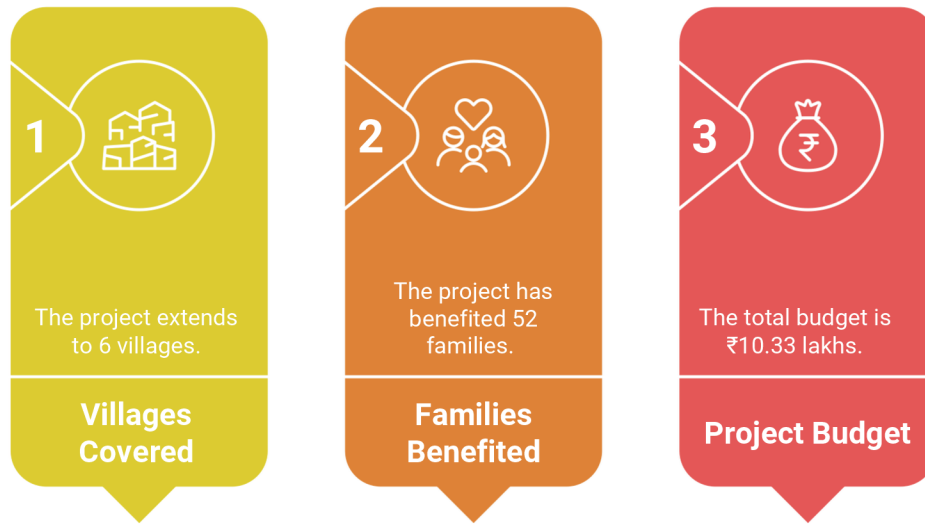

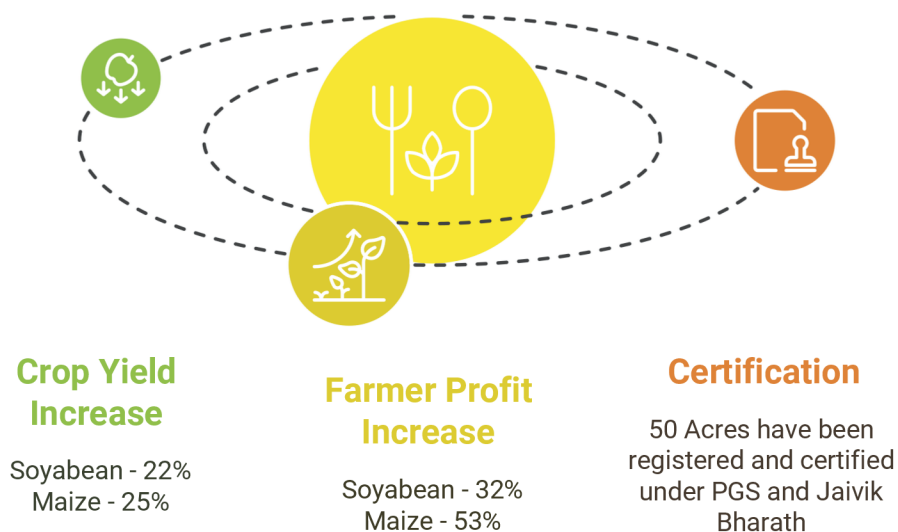

Ekalavya Foundation, committed to promoting natural and sustainable farming practices, has been actively working with tribal farmers over the past three years to foster ecological balance, improve soil health, and ensure access to safe, chemical-free food. This initiative addresses critical challenges related to the conservation of natural resources, healthier food production, and income enhancement for small and marginal farmers.

With generous financial support from CGI India, the initiative was scaled up in 2024–25 across Indervelly Mandal of Adilabad District, Telangana.

## Organic Farming Impact Overview

# Activities Undertaken

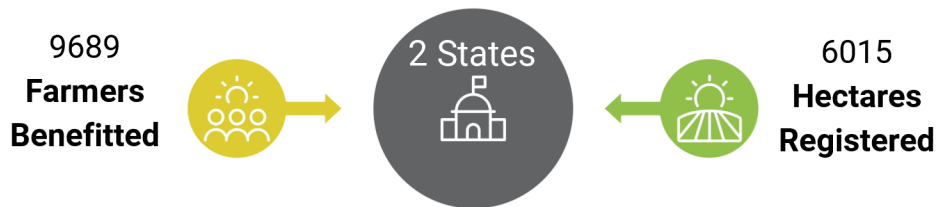

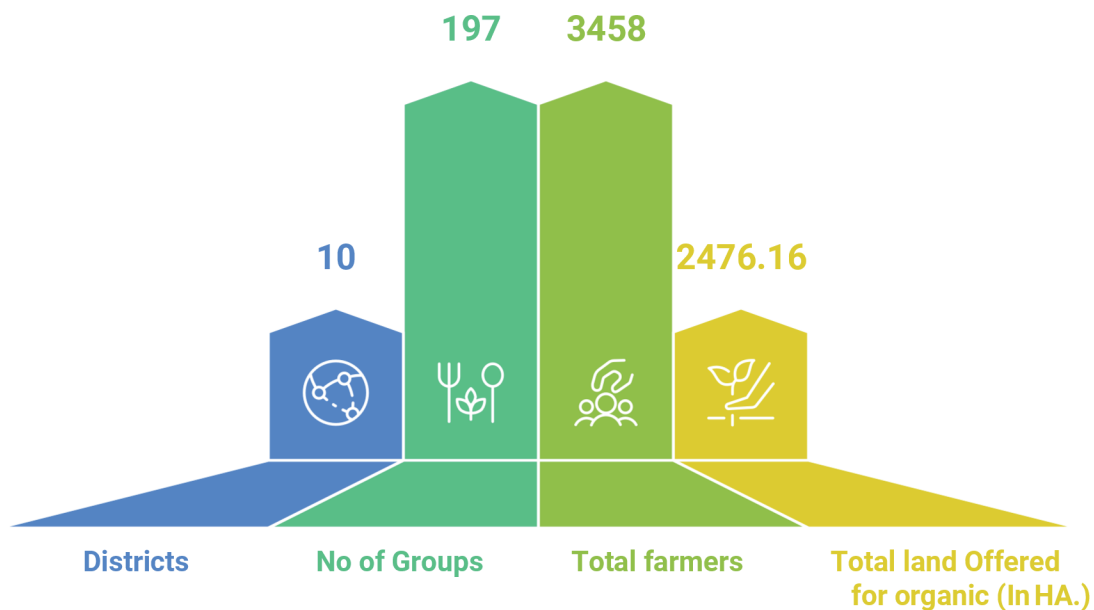

The Participatory Guarantee System (PGS-India), a government-recognized initiative, offers an inclusive and cost-effective method for certifying organic farms, especially tailored for small and marginal farmers. Ekalavya Foundation has proudly served as a Regional Council under PGS-India since 2017, promoting organic farming across Andhra Pradesh and Telangana.

Key Features of PGS Certification:

- Local Assurance System: Involves farmers, consumers, and local stakeholders
- Low Cost Third-Party Certification: Reduces barriers for small-scale farmers
- Collective Certification: Simplifies processes and builds trust within farmer groups
- Access to Premium Markets: Certified products can be sold through national e-commerce platforms such as Jaivik Bharat, E-NAM, Mystore, etc.

## Organic Farming Statistics

Date - 02/10/2024

## Wells

Excavation of 200 open wells.

## Sponsor

KFINTECH

## Duration

2 years.

## Budget

The project's budget is Rs. 152.33 lakhs.

### Project components

Adilabad and Kumram Bheem Asifabad (KB Asifabad, identified as aspirational) districts, are predominantly forested and hilly regions with an annual average rainfall of 1100 mm. However, due to the lack of water harvesting structures, a significant portion of rainwater flows away through canals and rivers, leaving no water for agricultural crops post-monsoon. This lack of critical irrigation infrastructure adversely impacts the livelihoods of the tribal communities in these districts.

To address these challenges, EF started a project of excavation of 200 open wells in 30-40 villages across Adilabad and KB Asifabad districts. These open wells will serve as rainwater harvesting structures and provide critical irrigation support for summer, kharif, and rabi crops. This initiative aims to enhance groundwater availability and improve the income levels and empowering the tribal families in the region.

**SUSTAINABLE  
LIVELIHOODS**

# Babjipet Sustainable Livelihood Development Project

India's 2nd NPO Project under the Social Stock Exchange (SSE):

The Babjipet Sustainable Livelihood Development Project (BSLDP) is a landmark initiative implemented by Ekalavya Foundation under the Social Stock Exchange (SSE) framework. Launched in February 2024 in Babjipet, Sirpur (U) Mandal, Komaram Bheem Asifabad District, this two-year project sets a pioneering example for future SSE-linked social development efforts.

## Total Budget

The overall financial allocation for the project is 85.30 Lakhs

## Beneficiary Contribution

The financial input from the beneficiaries is 9.8 Lakhs

## Funding Partners

ZERODHA, NABARD, Individual Donors

## Project Objectives

Strengthen non-farm livelihoods and animal husbandry  
Facilitate skill development and capacity building  
Empower women-led groups to drive community transformation

### Key Highlights :

- Project Inauguration: Held on 12th November 2024, graced by Sri. Uday Bhaskar, Chief General Manager, NABARD with participation of over 1,700 community members
- Women-led Implementation: Women's collectives are at the forefront of project execution and decision-making
- Training & Handholding:
  - 538 tribal participants trained in diverse Government welfare schemes, livelihood, entrepreneurial, and technical skills
  - Stipends provided for sustained engagement and practical application

This pioneering project represents a milestone for civil society in leveraging capital markets to advance development goals. BSLDP is not just a project—it is a model of community-led transformation, designed to be scalable, sustainable, and impactful.

# Activities Undertaken

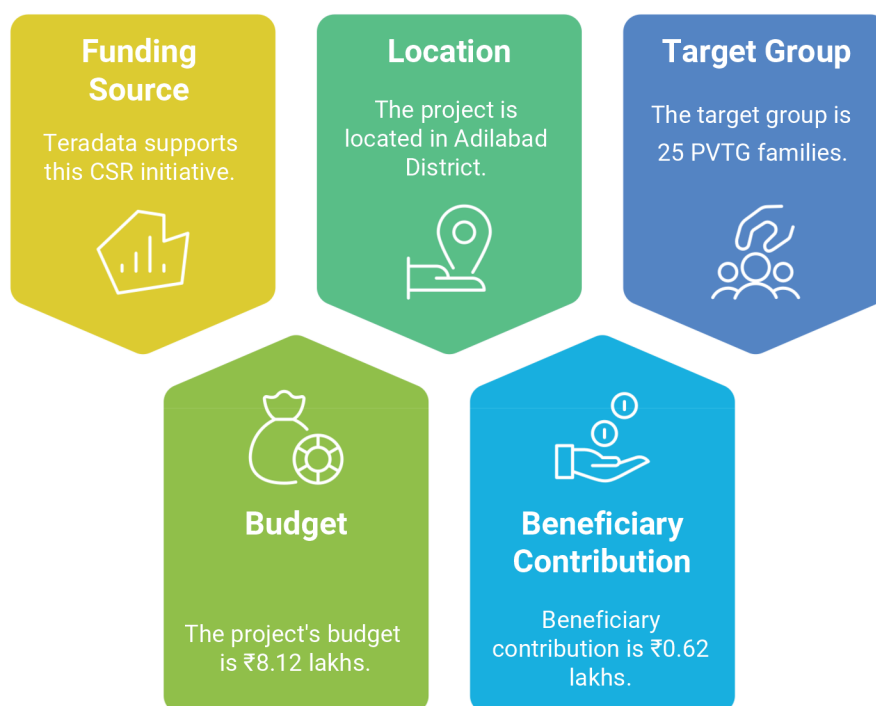

# Sustainable Livelihoods For PVTGs

The Adilabad tribal region is home to Particularly Vulnerable Tribal Groups (PVTGs) like the Kolam and Thoti, who endure extreme economic marginalization. Many of these families have minimal or no cultivable land (1–2 acres or less), rendering traditional farming unsustainable and resulting in annual incomes as low as ₹15,000–₹20,000. To address this challenge, Ekalavya Foundation, with generous CSR support from Teradata, launched a Goat Rearing Project to promote sustainable livelihoods and economic empowerment.

## Key Activities :

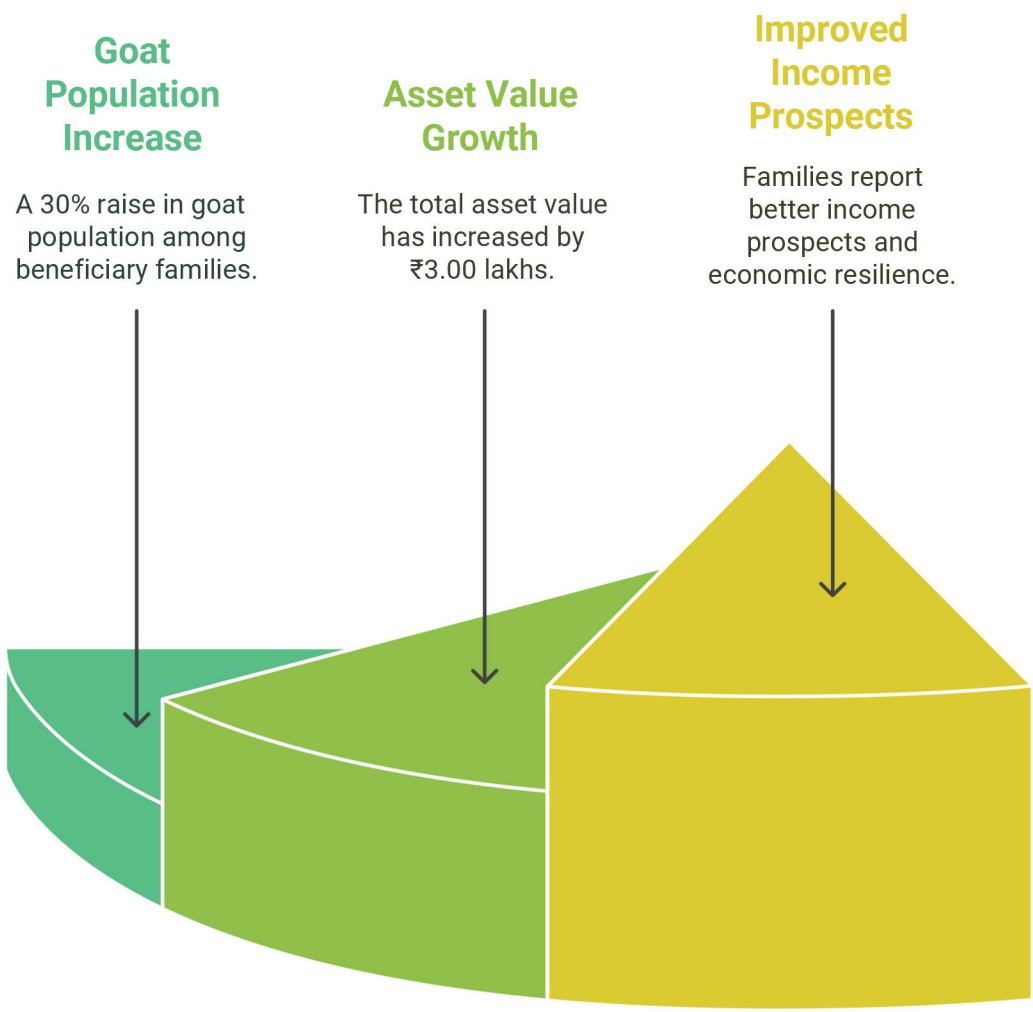

- Baseline Survey to assess socio-economic conditions and livelihood needs
- Selection of 25 PVTG families in collaboration with Women and Farmer Clubs
- Skill Training on Goat Rearing and continuous monitoring support
- Distribution of Goat Units (3 females + 1 male per family)
- Facilitation of Insurance Enrollment for the goat units to safeguard assets

This initiative is a step forward in transforming lives through livestock-based livelihoods, especially in regions where land-based income generation is limited. It demonstrates how targeted, low-cost interventions can lead to sustainable, community-driven change

# Activities Undertaken

**PEOPLE's  
COLLECTIVES**

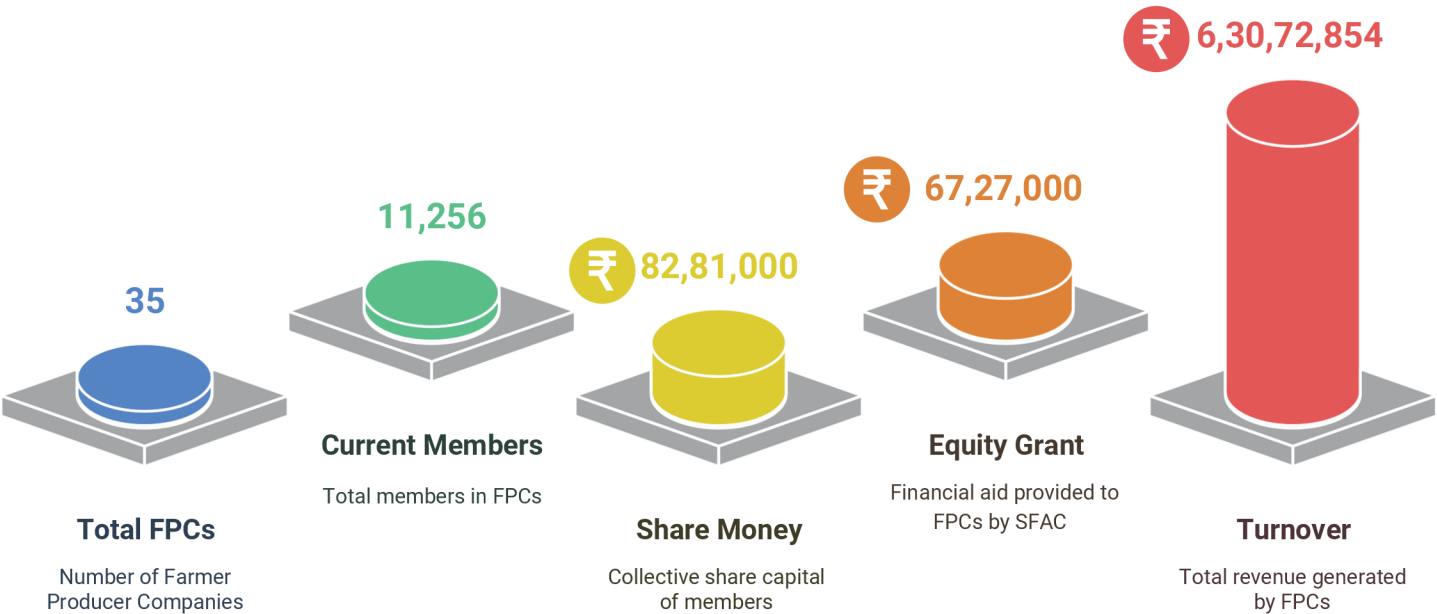

# Farmer Producer Companies

The Small Farmer’s Agri-Business Consortium (SFAC), operating under the Ministry of Agriculture, has been at the forefront of fostering the creation and advancement of Farmer Producer Companies (FPCs). Their focus is now on developing an ecosystem to ensure the long-term sustainability and viability of these entities.

Ekalavya Foundation proudly serves as an empanelled Cluster-Based Business Organization (CBBO) entrusted with the task of facilitating the formation and promotion of Farmer Producer Companies (FPCs). This initiative falls under the Central Sector Scheme for the Formation & Promotion of 10,000 FPCs, reflecting a concerted effort to empower small farmers and enhance agricultural prosperity.

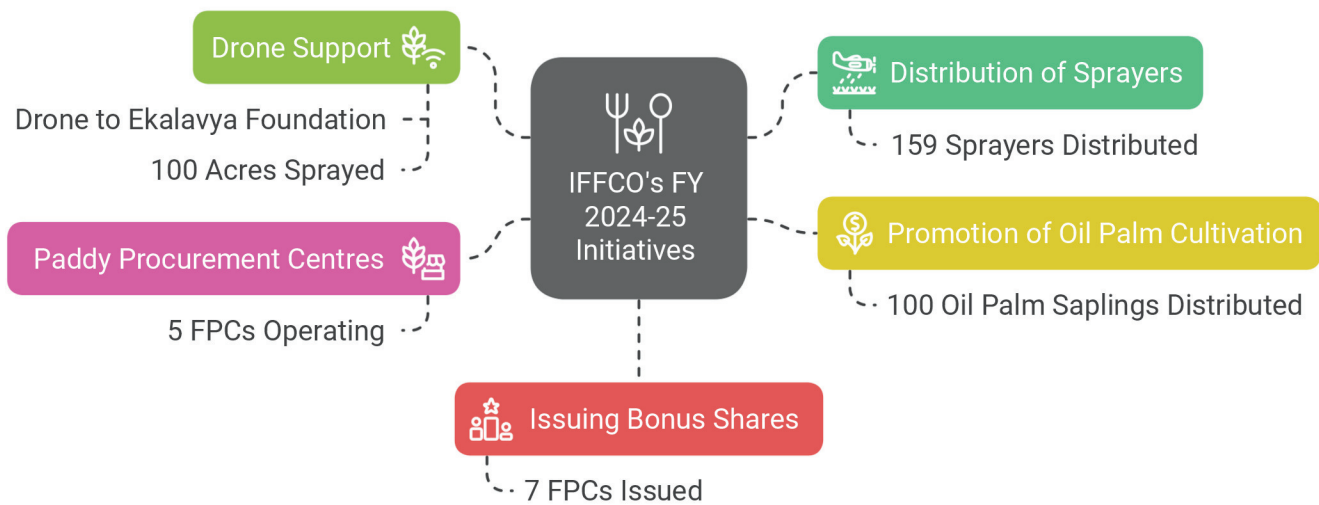

Financial and Membership Overview of FPCs

# Initiatives

# Farmer Clubs and Women Clubs

## FARMER CLUBS (FC)

Ekalavya Foundation's primary objective is to empower communities to independently sustain project activities beyond the project's active period. In line with this vision, Farmer Clubs have been established in every village within the project areas.

These clubs serve as grassroots platforms where members convene monthly meetings to discuss and address a range of village-level issues, including agriculture, access to government schemes, health, education, and other community concerns.

To promote financial discipline, members are being encouraged to undertake internal savings. Additionally, they receive training in bookkeeping and other relevant skills, enabling them to manage their affairs effectively and build a foundation for self-reliant community development. Club members meet monthly to:

- Discuss new government development schemes and how to put them into action.
- Address village issues and brainstorm solutions.
- Plan village development activities through a Shramadanam calendar.
- Encourage saving and investing habits. Members deposit money in the bank monthly, which can be borrowed during emergencies or crop cycles, helping avoid high-interest debt.
- Aim for at least 80% attendance at meetings.
- Provide regular training on government schemes and related topics to club members.

## WOMEN CLUBS (WC)

Women clubs (WC) are formulated to promote the ownership and involvement of women in developmental activities.

WC functioning is similar to the farmer clubs and works in close association with the Farmer Club (FC) for the development of the village.

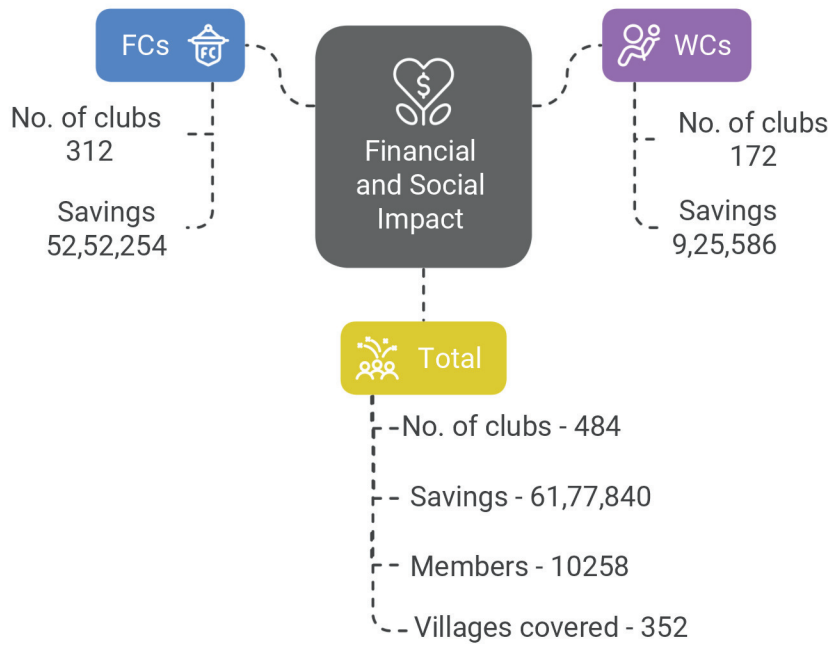

WC has monthly meetings to discuss the issues related to women and village and try to find out ways to sort them out.

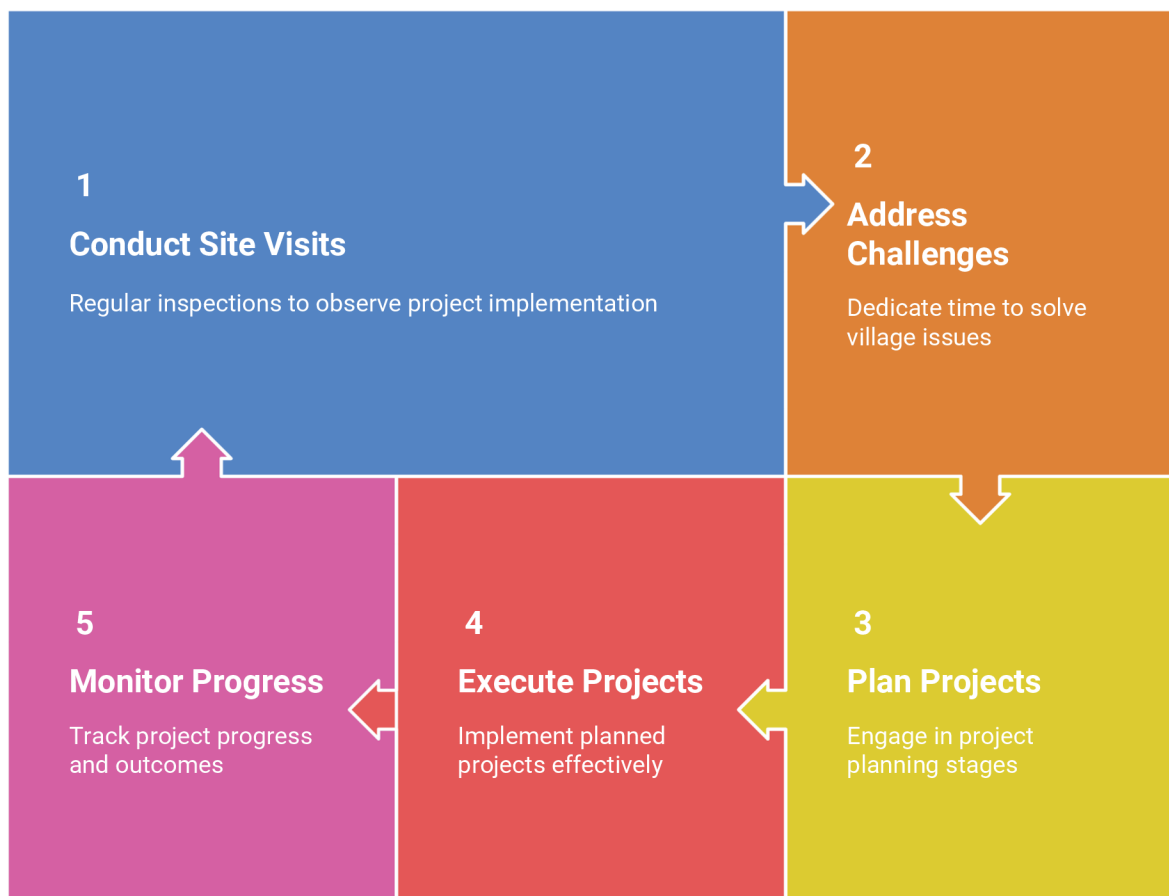

# Impact Of Clubs

Gram Vikas Samiti is formed to overview the developmental activities and extension of projects. In each project village, we've set up Gram Vikas Samiti (GVS), a team of 4 volunteers (2 men and 2 women). They're the local heroes, ready to keep the developmental ball rolling even after our support ends. We train them in maintaining watersheds, organic farming, basic accounting, and connecting with government agencies for village development schemes. They're like the village encyclopedia, helping with everything from animal husbandry emergencies to community projects.

## Grama Vikasa Samities Cycle

# EDUCATION

EKALAVYA  
FOUNDATION

వికలత్వ ఛాండ్సన్ ఆధ్వర్యంలో

**విద్యా వికాస కేంద్రం**

ప్రాథమిక విద్య - ప్రగతికి బాట

సెంటర్ పేరు: యెళ్ళ సూర్

గ్రామం: చిలాడి గూడ (B)

మండలం: సిర్పూర్ (U)

జిల్లా: కొత్తూరుంథం ఆసిఫాబాద్

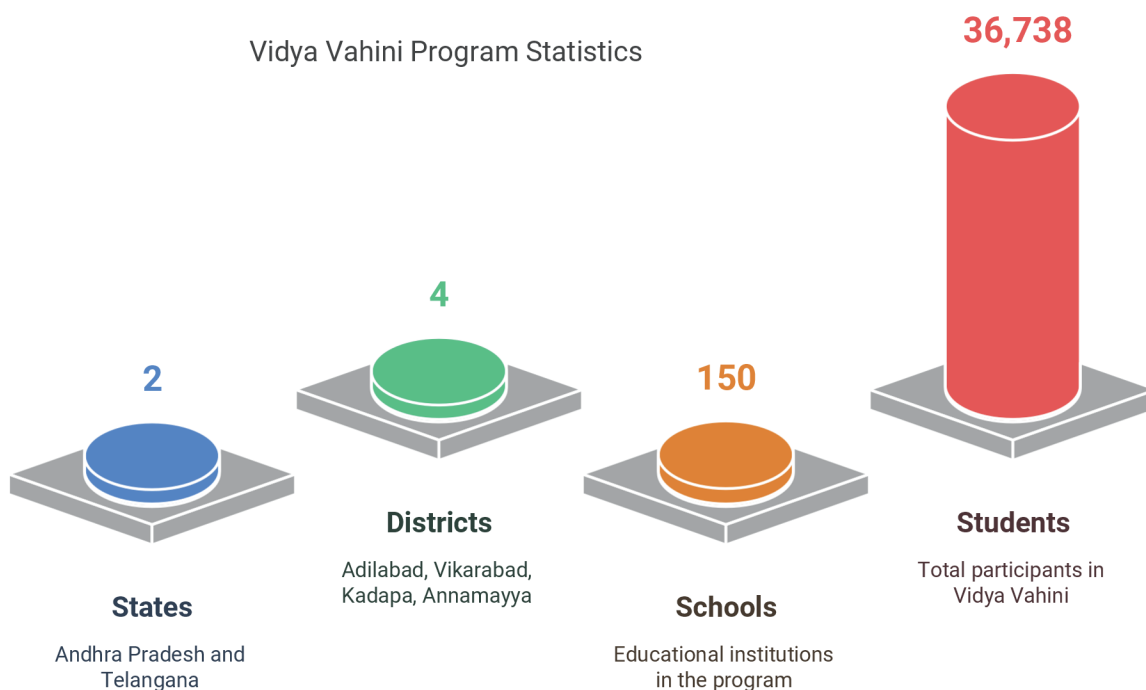

This intervention aims to enhance soft skills in government schools, fostering creativity and moral values among students. Co-curricular and extracurricular competitions will be organized at both intra and inter-school levels within the district to provide opportunities for students to showcase their talents and skills.

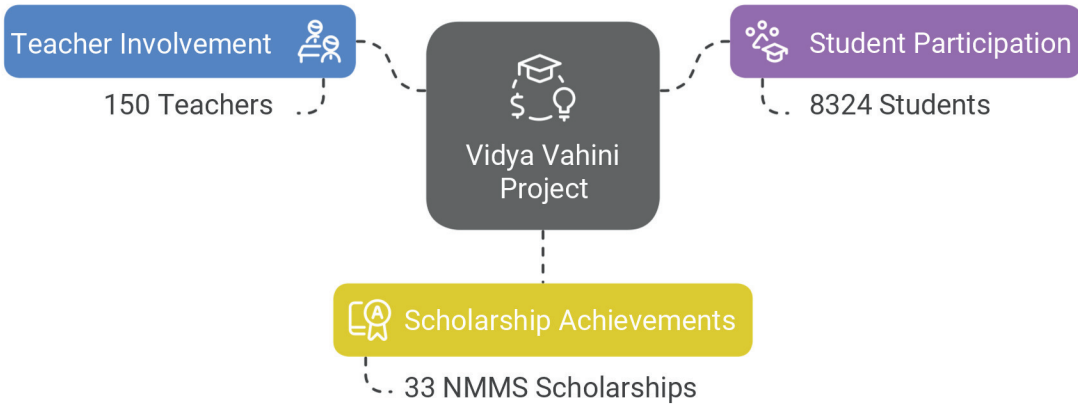

## Main objectives of the Project

- Honoring mandal level toppers of 10th standard encourages academic excellence and motivates students to strive for success, setting a positive example for their peers.
- Encouraging participation in various competitions fosters skill development across academics, sports, arts, and other fields, promoting holistic growth among students.
- Introducing students to a wide range of career options helps them understand their interests, skills, and values, empowering them to make informed decisions about their future paths.
- Appreciating the dedication of teachers who support the Vidya Vahini project inspires continued commitment and excellence among educators, contributing to the project's success and sustainability.

Vidya Vahini Program Statistics

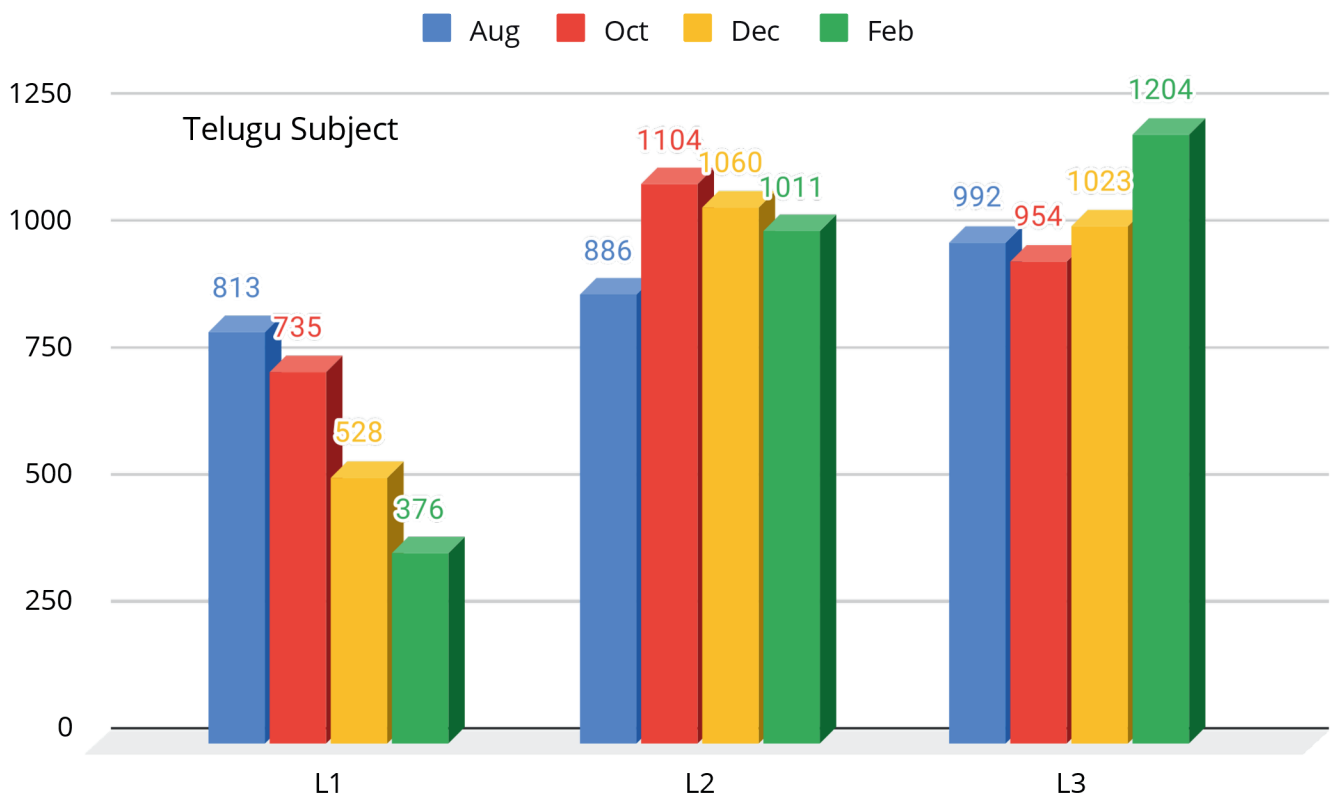

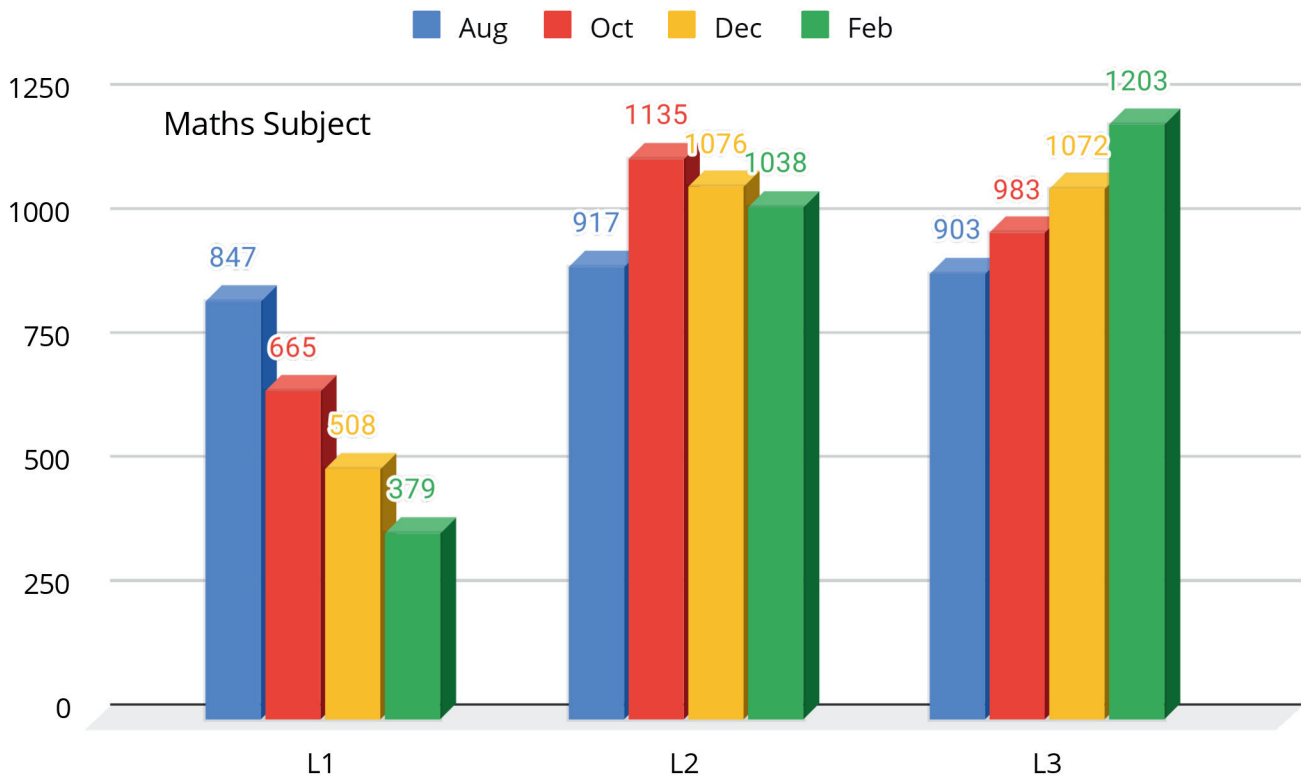

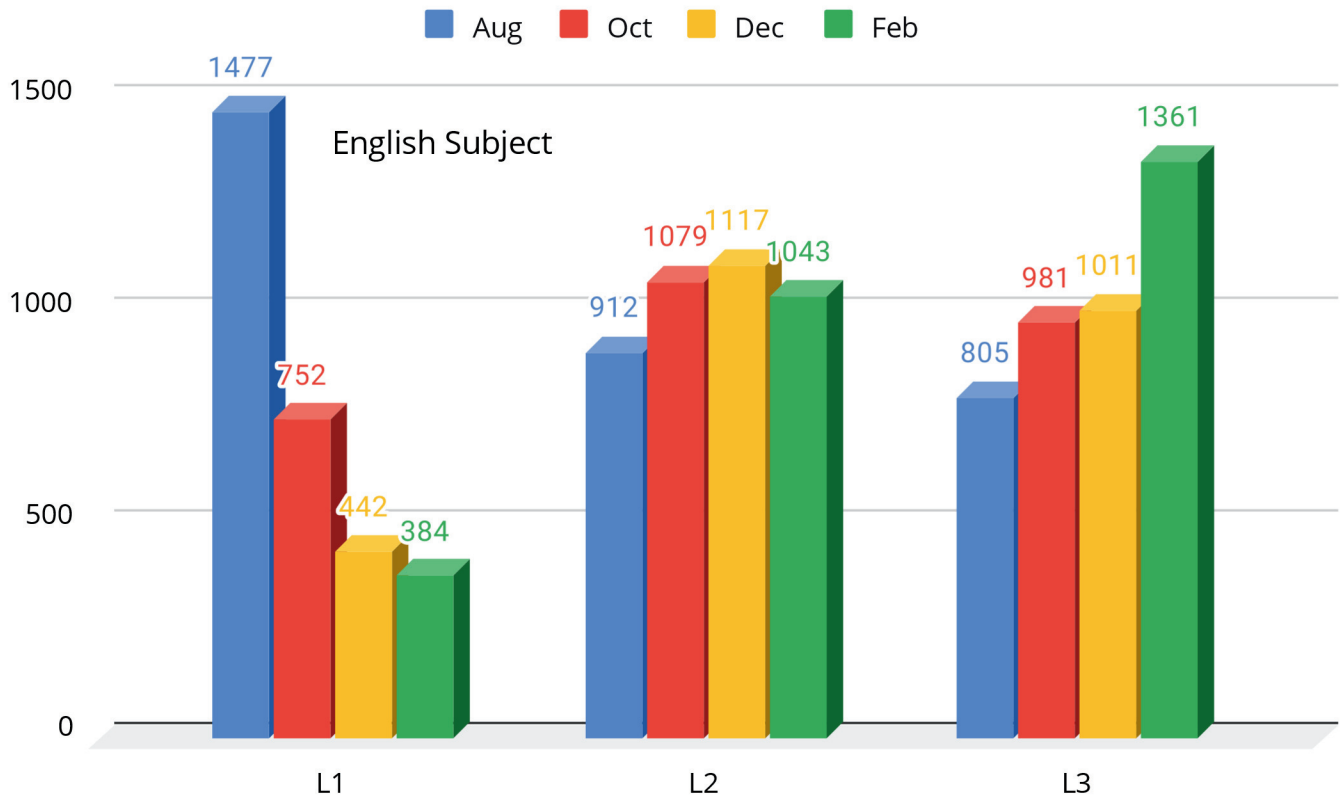

In tribal villages, a significant portion of families rely on agricultural and labor-related endeavors for their livelihoods. Due to the prevalent illiteracy among parents and their engagement in sustenance activities, they often lack the resources to dedicate time towards overseeing and nurturing their children's education and future prospects. Without adequate attention to the comprehensive growth of children during their formative years, there's a risk that they might not mature into responsible citizens, and instead, could become susceptible to engaging in antisocial behaviors.

## Objectives and Goals of Vidya Vikasam Project:

- Providing access to quality education for underprivileged children at the primary level in rural villages.
- Fostering an inclusive environment that encourages peer learning among children.
- Addressing educational disparities by bridging gaps in the existing schooling system.
- Raising awareness among parents about their crucial role in fostering their children's development.
- Empowering tutors to assume leadership roles within their villages.

### Reduce Sunstroke Cases

Observe a decline in sunstroke incidents

### Distribute Sunstroke Medicine

Provide medicine to prevent sunstroke

### Conduct Health Camps

Organize medical camps in rural areas

### Provide Check-ups

Offer general health check-ups to villagers

### Distribute Medicines

Supply necessary medicines to the community

### Raise Awareness

Educate about preventive health practices

# From Struggle to Self-Reliance

**This store gave me more than income — it gave me purpose,” says Peeraji with pride.**

In a quiet corner of LacchampurK village, Indervelly mandal lives Pote Peeraji, a determined man who, despite his physical disability, dreamt of providing a better life for his family. With two children and a wife depending solely on him, life was a daily struggle. Unable to engage in manual labor due to his condition, Peeraji faced the harsh reality of limited livelihood options.

Through timely intervention under our project, we identified Peeraji’s need and potential. With a support amount of ₹12,000, he was able to start a mini provisional store—a step that would soon transform his life.

What started small is now a beacon of hope. Today, his store is valued at ₹35,000, has generated a total income of ₹49,000, and earned him a total value of ₹72,000.

This humble shop not only sustains Peeraji and his family but also restores his dignity and independence.

“His success is a testament to how the right support at the right time can empower even the most vulnerable to rise with resilience and rewrite their story”.

# Water Brought Life – Scarcity to Prosperity

**“I never imagined I could grow a second crop in my lifetime. The farm pond didn’t just store water — it brought new hope to my farm and my family,” shares Someshwar with gratitude.**

In the remote village of Walgonga, Adilabad district, farmer Merasam. Someshwar had long struggled with a harsh reality — a lack of water meant his land could support only one crop per year. This limitation kept his yields low and income uncertain, leaving his family's future hanging in the balance.

Before any intervention, Someshwar cultivated 2.5 acres, growing cotton and redgram. His total yield was 9 quintals, with an income of ₹63,400 and a net profit of ₹48,150. Though he worked hard, water scarcity kept his efforts from reaching full potential.

## **The Turning Point: A Farm Pond**

Through our project, Someshwar was identified as a beneficiary in need of water resource support. A farm pond was constructed on his land — a simple yet life-changing intervention.

The results were nothing short of transformative.

After the farm pond was installed:

- Land under cultivation increased from 2.5 to 3.5 acres
- Able to grow a second crop for the first time in his life
- Total yield was more than doubled, reaching 21 quintals
- Net profit jumped from ₹48,150 to ₹88,800

## **A Sustainable Livelihood**

“Thanks to improved water access, Someshwar now enjoys higher yields, diversified cropping, and more stable income, which directly contributes to a better quality of life.” His story is a shining example of how timely, simple interventions can lead to lasting transformation for smallholder farmers.

# Sowing Change, Growing Organically

**“We thought chemicals were the only way. But with organic farming, not only did our yield go up – our soil, our health, and our confidence improved too,” shares Sunitha.**

In the heart of Kailash Nagar, Adilabad, lies Saheb Rao Farm, where a quiet revolution in farming is taking root – led by a determined woman, Banduke Sunitha. Initially, Sunitha and her husband followed conventional farming methods, heavily relying on chemical inputs for their soybean cultivation. But everything changed when Sunitha attended a community meeting on organic farming facilitated by our project. Inspired by the benefits, she made a bold decision – to transition to organic methods and stay committed for 3 consecutive years. Her commitment has created a ripple effect – neighbors, inspired by her success, are now eager to explore organic farming on their own lands.

| Year | Area (acre) | Cost (₹) | Yield (Qt) | Quality            | Revenue (₹) |
|------|-------------|----------|------------|--------------------|-------------|
| 2023 | 1           | 6150     | 3.5        | Mixed seed         | 18,550      |
| 2024 | 1           | 6500     | 5.4        | Yellow round seeds | 26,190      |

Sunitha’s journey is proof that when empowered with the right knowledge, even a smallholder farmer can lead a movement. From better soil health to improved yield and sustainable practices, this story is not just about growing crops – it’s about creating a better future for the entire farming community.

“Change begins with a seed and a farmer who believes.”

## Enhancing Yields Through Advanced Technology

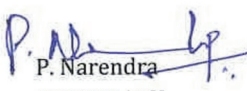

## Diversifying Income Through Non-farm Livelihoods
